

K-Love has been an important part of my life for the last 3 years. It has a calm effect in the midst of my storms. Because they have a low frequency, I am only able to get it in my car. I currently am trying to listen online at work, so it has been a great service to me at work, also. I especially like that they have NO commercials. It is also very special when I hear them praying whenever they feel lead. The music is uplifting and encouraging in an ever changing world.

Thank you for the opportunity to tell you my comments
